

Dominic Junik

Junior Software Engineer

Denver, CO | dominic.junik@gmail.com | [LinkedIn](#) | [GitHub](#)

PERSONAL SUMMARY

Entry level software engineer with experience in full-stack JavaScript web development. Transitioning from a long-term involvement in competitive gaming, possesses a deep passion for coding, as it combines creativity and logical analysis to solve problems. Looking to continue developing and refining my skills in pursuit of becoming a senior developer. Demonstrates exceptional communication skills, both verbal and non-verbal, acquired through working with individuals with disabilities and collaborating within large team environments for gaming competitions.

EDUCATION

Activate Work – Per Scholas | Denver, CO

2023 – Present

Software Engineering 15-week Boot camp

Comprehensive and intensive hands-on technical training in web development/software engineering. Each day we would learn new concepts and then break into groups and practice them in labs. This course was split into 3 modules, with a project at the end of each: individually designed, implemented, and formally presented.

- JavaScript and CS concepts: [Memory Game Project](#)
- Front-End Frameworks (React): [D&D API Project made with React](#)
- Back-end Frameworks (MongoDB): [Trick or Tweet - Full stack virtual Halloween](#)

PROFESSIONAL EXPERIENCE

Competitive Team Gaming - Online

World of Warcraft Mythic Raiding – Hobbyist (without pay)

2017 – 2022

Competed on a team of 24 people. Admission to this team required an application including logs of prior performance in addition to a behavioral interview. Attendance and performance were held to a strict standard.

- Conducted daily research, practice, and ran optimization simulations for my role. Maintained a starting roster position the entire time and was entrusted with the most difficult tasks.
- Our team hosted debriefing meetings to be much more time efficient allowing us to out rank teams that played 25% more than us. Top ranking achieved US 74th
- Helped cultivate a professional and inclusive culture that resulted in over 12 members staying on the team over the 5-year period.

Rocky Mountain Human Services - Denver, CO

Direct Support Professional

2009 – 2012

- Provided direct support services to individuals with severe/profound disabilities.
- These services included: Bathroom care, meal preparation/feeding, outreach, and community activities.
- Held certifications in CPR, First Aid, and MANE (Mistreatment, Abuse, Neglect, and Exploitation).
